Inspironix<sup>®</sup>, Inc., a growing provider of software for the education sector, today announced that it has released its newest version of InspiroScan<sup>™</sup>, an OMR (bubble form) testing and data collection system.

InspiroScan provides schools and corporations with a bubble form solution that

- Reduces cost by using low-cost, off-the-shelf scanners
- Reduces cost by providing bubble forms as soft documents that can be reproduced in unlimited quantities by users
- Saves time by providing a powerful and easy to use interface for scanning sheets, editing data, and producing reports

The latest version of InspiroScan includes new features based on customer feedback, including

- Aggregate data collection, so that historical reports, and reports on large data sets can be performed
- Score reports
- Item analysis reports
- Discipline and Subject performance reports

InspiroScan<sup>™</sup> builds on Inspironix's focus on providing unique solutions that help teachers spend less time on paperwork and grading and more time with students.

For pricing and availability of InspiroScan software and scanners, contact Inspironix at (916) 488-3222, toll free (866) 684-3669, or e-mail [info@inspiroscan.com](mailto:info@inspiroscan.com).
