Inspironix<sup>®</sup>, Inc., a growing provider of software for the education sector, today announced that it has released its newest version of InspiroScan<sup>®</sup>, an OMR (bubble form) testing and data collection system.

InspiroScan<sup>®</sup> provides schools and corporations with a bubble form solution that:

- Reduces cost by using low-cost, off-the-shelf scanners
- Reduces cost by providing bubble forms as soft documents that can be reproduced in unlimited quantities by users
- Saves time by providing a powerful and easy to use interface for scanning sheets, editing data, and producing reports

The latest version of InspiroScan<sup>®</sup> includes new features based on customer feedback. These features include:

- An option to save your data in a Microsoft SQL Server database.
- A new Responses Per Student report.
- Improved Survey Form Creator features.

InspiroScan<sup>®</sup> builds on Inspironix's focus on providing unique solutions that help teachers spend less time on paperwork and grading and more time with students.

For pricing and availability of InspiroScan<sup>®</sup> software and scanners, contact Inspironix at (916) 488-3222, toll free (866) 684-3669, or e-mail [info@inspiroscan.com](mailto:info@inspiroscan.com).
